---

7. **Dial pad**:
   - used to dial telephone or extension numbers in numeric mode,
   - used to enter letters and punctuation marks in alphabetical mode.

Table showing the available characters

Key	TELEPHONE MENU	SYSTEM MENU
1	`1üéâäàåêëèïîìÄÅÉæÆôöòûùÖÜ`	`.:?1`
2	`ABC2`	
3	`DEF3`	
4	`GHI4`	
5	`JKL5`	
6	`MNO6`	
7	`PQRS7`	
8	`TUV8`	
9	`WXYZ9`	
0	`0!"&()+,-.:;<>=?`	`+-!0`

Use the Previous button to delete a character.
Use the Next button to enter a space.
Use the Next button to move the cursor to the right.

8. **AD button**: used to access your personal directory.

9. **Microphone**

10. **INT button**: used to measure the quality of the radio link.

11. **Redial button**: used to automatically redial the last outside number you dialed.

12. **R button**: used to place a call on hold, return to the held call and speak to two parties in turn.

13. **ON/OFF HOOK button**

Before using the cordless phone

You must perform the following operations before attempting to use the WT9001 cordless phone.

Charge (or recharge) the battery pack

The WT9001 cordless phone is supplied with a rechargeable battery pack and charger unit.

To charge the battery pack:
- Remove the back cover of the cordless phone.
- Insert the supplied battery pack in its housing as indicated.
- Replace the back cover and snap firmly into place.
- Place the cordless phone on the charger unit, with the keypad facing you.
- Plug the charger unit in a 220/230V-50Hz wall socket.
- The battery pack should remain at least twelve hours on the charger unit. When fully charged, the message "100%" is displayed.

```
No system      100%
```

Register the cordless phone

To register the cordless phone, see the Installation manual.

Check the quality of the radio link

The WT9001 cordless phone automatically measures the quality of the radio link. To make sure that you are within range of a base station and that your cordless phone is successfully registered, you may view the quality of the radio link as follows:
- Press the **Menu** button.
- Press the **INT** button.

```
SYSTEMA KE1 KE2
RSSI:98 88 37
```

Note: The quality varies from 00 (very poor) to 99 (excellent).

First call

Call an extension
• Press the **ON/OFF HOOK** button.
• Dial the extension number.

Call the attendant
• Press the **ON/OFF HOOK** button.
• Dial the Attendant access code (**9**).

Place an automatic callback (to a cordless phone only)
If the extension you are calling is busy or unanswered, you may automatically place another call to the extension.
• When you hear the busy tone, press the **Previous** or **Next** button to select the «Call-back» feature.

```
BOB
>Callback
```

• Press the **OK** button to activate the feature.
• Press the **ON/OFF HOOK** button.
The «Callback» feature will send you a ring as soon as the previously busy extension is available.

Enter into an existing call (to a cordless phone only)
If the extension you are calling is busy, you may attempt to enter into the conversation. The attempt to intrude on the call is denied if the Intrusion is disabled at the extensioin you are calling.
• When you hear the busy tone, press the **Previous** or **Next** button to select the «Intrusion» feature.

```
BOB
>Intrusion
```

• Press the **OK** button to activate the feature.
You are in a three-party conversation.

Call any member of a group of extensions
• Press the **ON/OFF HOOK** button.
• Dial the group (department) number (from ☎[1]**4500** to ☎**4532**).

Call an outside party
• Press the **ON/OFF HOOK** button.
• Dial the dial-out code (**0**).
• Dial the outside telephone number.

---

1.   ☎ *represents the first digit that may have to be dialed.*

Use the DECT 12 directory (system feature)

To place a call to an outside party whose telephone number is stored in the DECT 12 directory, you may key in a name.

- Press the **ON/OFF HOOK** button.
- Press the **Menu** button.

```
PLEASE DIAL
>Note
```
➤
```
MENU:
<Tel.    System>
```

- Press the **Previous** or **Next** button to select the «DISP/DIAL EXT.» feature.
- Press the **OK** button then the **Previous** or **Next** button to view the entries one by one.

```
DISP/DIAL EXT.
ok  A-Z  INT  <>
```
➤
```
00: AKETHO K
4716
```

  or

  Enter the first letter of the name then press the **Previous** or **Next** button to view the entries one by one.

```
00: AKETHO K
4716
```

- When the requested name is displayed, press the **OK** button to place the call.

Use your personal directory (telephone feature)

To place a call to an outside party whose telephone number is stored in your personal directory:

- Press the **ON/OFF HOOK** button.
- Press the **AD** button.
- Enter the appropriate AD number (from ❷01 to ❷21) or press the **Previous** or **Next** button to view the entries one by one.
- When the requested name is displayed, press the **OK** button to place the call.

Redial the last number dialed (telephone feature)

Your cordless phone automatically stores the last three outside numbers you dialed.

When the outside number you are calling is busy or unanswered, you may continue to dial the number:

- Press the **Redial** button as many times as necessary to select the appropriate telephone number.
- Press the **ON/OFF HOOK** button when the appropriate number is displayed.

Note: *You may also switch on your cordless phone first, then select the appropriate number by pressing the Redial button.*

Send a message to an outside party (ISDN service)

When the outside number you are calling is busy or unanswered, you may send one of the following:

> PLEASE CALL ME BACK SOON, PLEASE CALL BACK TOMORROW, I WILL CALL BACK LATER, I WILL CALL BACK TOMORROW or DATE FOR MEETING OK.

• Press the **Menu** button.
• Press the **Previous** or **Next** button to select the «MESSAGES» feature.

```
MENU:                      MESSAGES
<Tel.    System>    ➤      ok              <>
```

• Press the **OK** button.
• Press the **Previous** or **Next** button to select the «SEND MESSAGE» feature.

```
LEAVE MESSAGE              SEND MESSAGE
ok            <>    ➤      ok              <>
```

• Press the **OK** button twice to activate the feature.

```
SEND MESSAGE=OFF           SEND MESSAGE=ON
On            <>    ➤      ok
```

• Press the **OK** button to confirm.
• Press the **Previous** or **Next** button to select the appropriate message.

```
SEND MESSAGE= ON           PLEASE CALL BACK
Off           <>    ➤       More           <>
```

• Press the **OK** button to confirm.

Leave a message for callers to your phone (ISDN service)

To leave one of the following messages for your callers' attention:

> HOLIDAY UNTIL --.-- or BACK AT --.--.

• Press the **ON/OFF HOOK** button.
• Press the **Menu** button.

```
PLEASE DIAL                MENU:
>List              ➤      <Tel.    System>
```

• Press the **Previous** or **Next** button to select the «MESSAGES» feature.
• Press the **OK** button.

```
MESSAGES                   LEAVE MESSAGE
ok            <>    ➤      ok              <>
```

• Press the **OK** button to activate the feature.
• Press the **Previous** or **Next** button to select the appropriate message.

```
STORE = ON                 HOLIDAY UNTIL
Off           <>    ➤      Date            <>
```

• Press the **OK** button.
• Enter the appropriate time or date.

```
--.--.                     15.01.
    0-9<           ➤      ok  <
```

• Press the **OK** button to store the time or date.
• Press the **ON/OFF HOOK** button.

Answer a call

- Press the **ON/OFF HOOK** button or remove the cordless phone from the charger unit.

Note: *When receiving a trunk call, the display shows either the calling party's name (if stored into the DECT 12 direc-
tory) or the calling party's number (caller identification sent by the network) or the message "TEL NO
UNKNOWN".*

Play a voice message

If your telephone system is equipped with a voice messaging system, your callers are able to
record messages in your voice mailbox. To play the recorded messages:

- Press the **ON/OFF HOOK** button.
- Dial the Voice mail access code (**❷471** to **❷478)**.

Answer a paging announcement

- Press the **ON/OFF HOOK** button.
- Dial the Answer-back access code (**❷60)**.

Note: *You have 2 minutes to answer a paging announcement.*

With a call in progress

Place a call on hold (ISDN service)

You may place a call on hold anytime you have to interrupt the conversation to answer another call, place a new call or perform some other task. You have to place the call on hold before transferring it.

• Press the **R** button.

Return to the call on hold (ISDN service)

• Press the **R** button.

Speak to two parties in turn (ISDN service)

When you answer or place a new call while active on another, you may speak to the two parties in turn.

• Press the **R** button twice.

Set up a three-party conference call (ISDN service)

You may add a call you have placed on hold to another call you are connected to and thus establish a three-party conversation.

• Press the **R** button to place the current call on hold.
• Dial the dial-out code (**0**) if the new party is an outside party.
• Dial the telephone number of the new party and wait for an answer.
• Press the **Previous** or **Next** button to select the «Conf» feature.

```
0241534222
>Conf
```

• Press the **OK** button to activate the feature.

To end a conference call:
• Press the **ON/OFF HOOK** button.

Transfer a call (ISDN service)

To send the present call from your phone to an extension or outside number:
• Press the **R** button to place the current call on hold.
• Dial the dial-out code (**0**) if the call is to be transferred to an outside number.
• Dial the number where the call is to be transferred and wait for an answer.
• Press the **Previous** or **Next** button to select the «Transfer» feature.

```
0241534222
>Transfer
```

• Press the **OK** button to activate the feature.
• Press the **ON/OFF HOOK** button.

Store a telephone number in temporary memory (system feature)

While conversing, you may store your caller's telephone number in order to call him/her back later.

- Press the **Previous** or **Next** button to select the «Note» feature.
- Press the **OK** button.

```
0241534222          ENTER NOTEPAD
>Note           ►   ok            <>
```
- Press the **OK** button to activate the feature.
- Enter your caller's telephone number.

```
TEL. NO. ?          0241534233
ok  0-9<        ►   ok  0-9<
```
- Press the **OK** button to store the number.
- Press the **STOP** button.

Use the number stored in temporary memory

- Press the **ON/OFF HOOK** button.
- Press the **Previous** or **Next** button to select the «Note» feature.
- Press the **OK** button.

```
PLEASE DIAL         ENTER NOTEPAD
>Note           ►   ok            <>
```
- Press the **Previous** or **Next** button to select the «DIAL» feature.
- Press the **OK** button. The telephone number stored in the temporary memory is displayed.

```
DIAL                0241534233
ok            <> ►  Dial
```
- Press the **OK** button to place the call.

View and delete the number stored in temporary memory

- Press the **ON/OFF HOOK** button.
- Press the **Previous** or **Next** button to select the «Note» feature.
- Press the **OK** button.

```
PLEASE DIAL         ENTER NOTEPAD
>Note           ►   ok            <>
```

- Press the **Previous** or **Next** button to select the «READ AND DELETE» feature.
- Press the **OK** button. The telephone number stored in the temporary memory is displayed.

```
READ AND DELETE     0241534233
ok            <> ►  Delete
```
- Press the **OK** button to delete the number.
- Press the **ON/OFF HOOK** button.

Copy the number stored in temporary memory to the DECT 12 directory
- Press the **ON/OFF HOOK** button.
- Press the **Previous** or **Next** button to select the «Note» feature.
- Press the **OK** button.

```
PLEASE DIAL
>Note
```
➤
```
ENTER NOTEPAD
ok              <>
```

- Press the **Previous** or **Next** button to select the «TRANSFER TO AD» feature.
- Press the **OK** button to activate the feature.

```
TRANSFER TO AD
ok              <>
```
➤
```
0241534233
Transfer
```

- Press the **OK** button to confirm the copy. A free AD number is displayed.
- Enter the appropriate name.

```
94: NAME ?
ok    A-Z  ><
```
➤
```
94: SCOTT
ok    A-Z  ><
```

- Press the **OK** button to store the entry.
- Press the **ON/OFF HOOK** button.

Microphone muting (telephone feature)
You may switch off the microphone in the cordless phone so the other person on the call cannot hear you.
- Press the **Menu** button.
- Press **0**.

To switch the microphone on again, repeat the above steps.

Adjust the receiver volume (telephone feature)
To increase the receiver volume:
- Press the **Menu** button.
- Press **#**.

```
VOLUME STANDARD
```
➤
```
VOLUME HIGH
```

To lower the receiver volume, repeat the above steps.
Note: *The factory setting is standard.*

Be notified of a waiting call (ISDN service)
While connected to a party, you may be notified of a waiting call by a specific tone.

To answer the new call

```
4522
Accept
```

- Press the **OK** button to confirm. You are now connected to the second caller, while the first party is placed on hold.

To refuse the new call

- Press the **Previous** or **Next** button to select the «Reject» feature.
- Press the **OK** button to confirm. You are still connected to the current call and your second caller hears the busy tone.

```
┌─────────────────┐      ┌─────────────────┐
│4522             │      │4522             │

└─────────────────┘      └─────────────────┘
```
Customizing the WT9001

Select a personalized ring signal (telephone feature)

You may choose your own personalized ring signal for your cordless phone from ten different possibilities.

• Press the **Menu** button.
• Press the **Previous** or **Next** button to select the «VOLUME/MELODY» feature.

```
MENU:                        VOLUME/MELODY
ok              <>    ►      ok              <>
```
• Press the **OK** button twice.
• Press the **Previous** or **Next** button to select the appropriate pattern.

```
MELODY=02                    MELODY=03
ok              <>    ►      ok              <>
```

• Press the **OK** button.
• Press the **STOP** button twice.

Note*: The different patterns are numbered from 01 to 10. The factory setting is pattern 02.*

Adjust the ringer volume (telephone feature)

You may adjust the ringer volume for your cordless phone from seven different levels.

• Press the **Menu** button.
• Press the **Previous** or **Next** button to select the «VOLUME/MELODY» feature.

```
MENU:                        VOLUME/MELODY
ok              <>    ►      ok              <>
```
• Press the **OK** button.
• Press the **Previous** or **Next** button to select the «VOLUME» feature.

```
MELODY                       VOLUME
ok              <>    ►      ok              <>
```

• Press the **OK** button.
• Press the **Previous** or **Next** button to select the required level.

```
VOLUME=05                    VOLUME=04
ok              <>    ►      ok              <>
```

• Press the **OK** button.
• Press the **STOP** button twice.

Note*: The different levels are numbered from 01 to 07. The factory setting is level 05.*

Feature availability depends upon system administration. Check with your system manager.

Additional information

Care of your cordless phone

Your phone has been designed to withstand everyday use. To avoid extensive damage:

- Avoid dropping your phone.
- Avoid subjecting your phone to extremes in temperature.
- Do not use solvents or polishes to clean your phone. Wipe over with a damp antistatic cloth.
- Do not attempt to open your phone.

Technical data

Cordless phone

- Housing: shockproof, antistatic ABS.
- Dimensions (mm): 54 x 151 x 30 (WxHxD).
- Weight: approx. 180g.

Charger unit

- Housing: shockproof, antistatic ABS.
- Dimensions (mm): 53 x 87 x 119 (WxHxD).
- Power consumption: max. 1.2 VA.

CE marking

If the CE marking is affixed to this equipment, then it conforms to the European Union Electromagnetic Compatibility Directive (89/336/EEC) and the Low Voltage Directive (73/23/EEC).

In case of difficulty

Message	Possible cause	Do this
KEYBOARD OFF	The keypad is locked	Unlock the keypad
No System 100%	The telephone is no longer within range of the base station The telephone is not registered	Get closer to the base station Register the telephone
Batt. Empty! Batt 0%!	The battery pack is flat	Recharge the battery pack or replace it

If any problems are encountered, please contact your local dealer.
